

Supported PMS Systems

New Hospitality's innovative Hosted PBX solution for Hotels & Resorts currently supports over **400** property management systems (PMS) from around the world.

The PMS platforms featured in this document can be seamlessly integrated with our solution at no cost. Platforms which are not included in the list below may be added in the near future. If your property management system does not feature on our list, please [contact us](#) to discuss your needs in greater detail.
